DIGBETH, BIRMINGHAM

DIGBETH: LOCAL AREA

The area is full of character and the home of industry in the midlands, as evidenced by the architecture and buildings within this conservation area. This regeneration of these buildings is creating some fabulous places to eat, sleep, shop and play.

Digbeth has been earmarked as the main residential growth area of the city, and will be home to the new hs2 hub site around the corner on Curzon street. Exciting proposals include an integrated metro stop in New Canal street extending through and serving Digbeth, with a step proposed directly in front of APEX Loft.

At the same time, there are plans for a wide landscaped plaza, Paternoster Place, that will transform pedestrian

connections into Digbeth and create gateway development opportunities. Proposals for Digbeth also include 33,000 Sqm of retail place, 150,000 sqm 75,000 sq m of residential development. It is estimated that this would create over 5,000 jobs.

The Custard Factory is the most powerful collection of creative and digital businesses, independent retailers and event venues outside London. It is home to over 500 businesses and hosts a regular calendar of fairs, festivals gigs, as well as corporate and private events and weddings.

DIGBETH, BIRMINGHAM

WHY INVEST IN BIRMINGHAM

Birmingham's economy currently stands in excess of £120 Billion, and is growing at a higher rate than any other city in the UK. It holds the accolade of the UK's second city after the Capital, which is reflected across the board within the cities key performance statistics.

Birmingham has been voted the best regional city in the UK to live in, with the cost of living approximately 60% lower than London. Many corporates have recognised the value and have already relocated to Birmingham. The property market is growing at an exponential rate, fuelled by the influx of major corporations and the growing deficit of housing supply. Birmingham simply does not have enough residences to meet the occupier demand.

MARKET PROJECTIONS

- Foreign Direct Investment to Birmingham reached £1.1 billion in 2018.
- Birmingham City Centre £500+ per sqft by 2022 according to both Jones Lang LaSalle and Knight Frank.
- Rental value growth +17% and capital growth +15% by 2024.

TRANSFORMATION

Birmingham's framework of six economic growth zones will attract a £1.5Billion investment programme generating some 1.8 Million square metres of new floor space and create around 50,000 new jobs.

By 2031, Birmingham will have undergone a transformational change that will see substantial economic growth furthering its dynamic presence on the international stage. The six economic zones provide the stimulus for clustering economic activity within high-quality business environments, each accelerating the delivery of growth to benefit the city.

CONNECTIVITY

Birmingham is strategically located for motorway travel with the M5, M6, M40 and M42 all interconnecting in and around the city. Three main rail stations serve Birmingham, New Street, Snow Hill and Moor Street, together providing a comprehensive network linking long-distance destinations across the UK.

Birmingham International is approx twenty-five minutes drive from the development, enabling domestic and international air travel with ease and convenience.
